VISION

The goal of Manav Rachna Online is to facilitate education and increase its access to prospective learners and providing opportunities to make efficient use of scarce resources in light of the new economic realities of higher education.

MISSION

Our mission is to help students develop industry-oriented skills and achieve their academic and professional goals through online learning methodologies. We aim to impart hands-on training and experiential knowledge for students to gain multidisciplinary know-how.

ENVISION YOUR GROWTH STORY

In today's world of digitization, technical education stands at the crossroads of keeping pace with the emerging needs of humankind along with fast changing trends in governance and scientific development. Keeping this in mind, Manav Rachna has launched "Manav Rachna Centre for Distance and Online Education" to provide quality programs to those learners who are not able to draw benefits from conventional systems of education.

The online programs will help the learners to achieve an academic degree along with flexibility and relaxation. These online programs hold equal academic value as on-campus degrees and help learners in developing themselves into an industry ready as equivalent to a conventional degree.

Students can perfectly reshape their career and future through impeccably designed online programs.

A renowned faculty, advanced curriculum, and technology-driven content delivery lead to the successful implementation of the online programmes.

Dr. Prashant Bhalla

President, MREI

MESSAGE FROM THE PRESIDENT

Dear students,

At Centre for Distance and Online Education, your learning outcome will meet the same world-class academic standards. As students in the campus, you will have the same access to facilities, the same access to the heritage of excellence at MREI and the same sense of pride in your degree. So experience the pride of being a part of Manav Rachna Online and its community, while engaging with your fellow learners and teachers.

We realise that online learners are subject to all the usual pressures of learners studying in any university, with often a whole series of other added life pressures whether it be financial, social, work, time consuming family or caring responsibilities.

We support your well-being and we want to make sure that you enjoy your time studying here and that you emerge stronger and more knowledgeable as an individual. Our best wishes for a very invigorating learning experience.

CORPORATE RESOURCE & CAREER DEVELOPMENT CENTRE

It's a known fact that over the past decade, career opportunities have increased dramatically owing to strong economic growth.

Despite this, a large number of fresh graduates fail to find suitable employment as they are unable to meet the skill and productivity level expected by the industry. As per a NASSCOM study, only 35% of total fresh engineers are employable due to a lack of technical skills as well as communication skills. This skill gap is a combination of a lack of technical skills as well as personality and communication skills. While the university curriculum imparts great

conceptual grounding, there keeps emerging a need for industry readiness through skill upgrades on new technologies as well as communication skills and personality development.

CDC provides overall personal effectiveness and development. Personal and technical skills will help in making your career more rewarding and help a learner benchmark his/her skills with industry expectations. After that, CRC builds the necessary skill set for specific roles in the industry and then provides opportunities to connect with the right organization through campus placement.

Corporate Resource Centre (CRC) is a centralized department under Manav Rachna Educational Institutions (MREI). It plays an imperative role in shaping the career of learners from orientation, internships, projects, and summer training to their final placements. Our goal is to assist the learners to be successful in their career development and job placement activities.

The center shoulders the responsibility of organizing in-campus interviews for learner training and placement.

MANAV RACHNA CENTER FOR DISTANCE & ONLINE EDUCATION (MRCDOE)

The last couple of years have witnessed a complete transformation be it in terms of going online completely, to learn and enhance the major competencies virtually with lots of precision. Students without losing their morale have adopted new-age technology solutions to perform stupendously.
